PROFILE

Video editor, social media manager and motion graphics designer with 6 years turning footage and ideas into animated video, with **1,000+ videos delivered and 10M+ views generated**. I design and animate kinetic typography, animated captions, logo reveals, lower-thirds, explainers and infographics in After Effects, and finish them in Premiere Pro with clean timing, pacing and sound design. I've shot and edited 100+ showroom videos for Mercedes-Benz, Tata Motors, KTM, Mahindra, Kia and Škoda dealerships, and built animated fintech explainers (forex, prop trading, crypto) with data-driven charts and product-UI animation for a trading-education brand that reached **3M+ views and 1,000+ leads**. I also work in 3D (Cinema 4D) and use AI tools (Claude, Higgsfield, ElevenLabs, HyperFrames) in a hybrid workflow. I'm certified in After Effects and Premiere Pro, and I'm ready to relocate to Dubai.
